SIR:

**SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**

In accordance with 37 C.F.R. 1.97 and 1.98 and MPEP 609, and in compliance  
\* with the duty of disclosure set forth in 37 C.F.R. 1.56, applicant submits copies of the  
references listed on the attached PTO/SB/08A for consideration by the Patent and  
Trademark Office in the above-entitled application.

The examiner's attention is directed to the "Tap Connectors" shown at the  
bottom of page 42 of the Milbank catalog reference. As illustrated, each connector  
appears to include several parts, namely, a flat body which apparently is formed to have  
a sliding fit on a U-shaped base (not shown), a cubic member fastened atop the flat  
body, a large set screw threaded through a hole in the flat body, presumably for contact  
with a conductor in the base, and a small set screw threaded into the cubic member,  
presumably for contact with a neutral wire at a location above the base when the  
connector is installed on the base.

In accordance with 37 C.F.R. 1.97(h) and MPEP 2129, the mere listing of the  
Milbank catalog reference in the attached PTO/SB/08A is not an admission that the  
reference is prior art with respect to the claims of the above-referenced application.
